## **ACKNOWLEDGEMENT**

I would like to express my special thanks of gratitude to my project guide Prof. **Lagad.S.R** as well as our principal Prof. **Bhoite.P.D** who gave me the golden opportunity to do this wonderful project on the topic **ONLINE MEDICAL STORE MANAGEMENT** which also helped me in doing a lot of research and i came to know about so many new things I am really thankful to them.

Secondly I would also like to thank my parents and friends who helped me a lot in finalizing this project within the limited time frame.

## **ABSTRACT**

The purpose of Online Medical Store Management System is to automate the existing manual system by the help of computerized equipments and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.

Online Medical Store Management System, as described above, can lead to error free, secure, reliable and fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. Thus it will help organization in better utilization of resources. The organization can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information

The purpose of Medical Shop Management System is to automate the existing manual system by the help of computerized equipments and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.
